Those employed in the store of Messrs. Wm. A. Johnson & Co., northeast corner of Cameron and Royal streets, were astonished about five o'clock this morning when they opened the building to find that the place had been burglariously entered during the had been burglariously entered during the night and the safe broken open and robbed. Upon a survey of the premises it was ascer-ained that the burglars had scaled the back fence and reached the yard adjoining the store, where, by boring holes with a brace and bit in the shutters they succeeded in opening them, and raising the window gained entrance to the office where the safe was situated which they proceeded to open in a professional manner, undoubtedly using burglars' tools. They first drilled a hole through the door into the combination lock near the knob, when, by inserting a file or a piece of steel, they struck the lock with a sledge hammer, there-by breaking it loose from its fastenings, which rendered the door easily opened.
The thieves abstracted from the safe
a gold watch belonging to Mr. Richard a gold water belonging to Mr. Richard Smith, a seal ring, watch charm, be-tween three and four hundred dol-lars in gold coin (placed in the re-ceptacie for safe keeping by a gentleman), one hundred dollars in silver and currency palmeins to the progressor. Mr. McWibelonging to the proprietor, Mr. McWilliams, some Virginia coupons, a receipt for a funded bond of the W. & O. R. R., and various other valuables. The burglars, it seems, made a minute examination of everything in the safe, opening, each appeals thing in the safe, opening each envelope and paper found. They left on the floor the brace and bit? (with which they cut through the outer blind), a chisel and sledge hammer. These things, it afterward appeared, had been obtained from the blacksmith shop of Fred Corbin, colored, on Queen street, be-tween Union and Lee, which place the robbers first entered. Corbin, who had been ignorant of the last robbery, when he reignorant of the last robbery, when he reported his loss at police headquarters this morning, identified the articles as his property. The contrivances, however, which the burglars used in opening the safe were carried away by them. There is no clue to the robbers, and the fact that the store should have been robbed, situated as it is on a corner connection the Clin Hall and it is on a corner opposite the City Hall and within two doors of the Hydraulion engine house, in which locality people are passing nearly all night, without attracting atten-tion, seems surprising. The police are ex-erting all their ingenuity to ferret out the

CHANGE OF PASTORS.—The annual session of the Virginia Conference, M. E. Church, with which Trinity Church of this city is connected, is now in ression at Ron-ceverte, W. Va., Bishop Bowman, presiding. Rev. John Edwards, of Trinity church, did not attend the session, as his connection with this conference will terminate at the end of this month and he will then return to the Baltimore Conference whence he came here. He sent his reports to the conference and will preach his last sermon in Trinity church, as its pastor, on Sunday next, hav-ing filled three yearly appointments here. The appointment for Trinity church will not be filled by the Virginia Conference but will be left open for the present, to be filled by Bishop Bowman at the session of the Baltimore Conference which commences on the 3rd of March, when, it is said, Rev. R. F. Bishop, of Denton, Md., will be sent here, the congregation of Trinity church having asked for his appointment. While here Rev. Mr. Edwards has made many friends.

THE CANAL STOCK MATTER.—Messrs. J. B. Smoot, D. A. Windsor, C. E. Stuart, S. G. Brent, K. Kemper, H. Bryant and B. Wheat, the committee recently appointed by the City Council to petition Congress to relieve the city of the canal stock indebted. ness, went to Washington yesterday to see Senator Mahone and Mr. Barbour in reference to the matter. They were most courteously received and had very satisfactory conferences with both the gentlemen named, who promised that they would do all in their power for the relief of the city. It is feared, however, that it is too late in the session of Congress now for a bill relieving the city from the indebtedness to be passed, but General Mahone, in the Senate to day introduced a bill for the desired object, which was referred to the Committee on

ARRESTED.—A white man, giving his name as Ben Robinson, was arrested in this city, on north Pitt street, yesterday even-ing, by Officers Arnold and Ticer, on the charge of having committed burglary in Richmond. He was taken to the station house and the Richmond authorities notified of the arrest by telegraph, and he will be detained till sent for. DESTROYING THE FISHWAYS.—The Maryland fish commissioner, Mr. Delawder, states that it is almost impossible to preserve interest the fishways which the State of Maryland erected on the upper Potomac, as the running ice and floods continually damage them or carry them away. There has been considerable complaint as to the condition of these ways, and the commissioner's statement is in answer to numerous inquiries as to why they are not repaired.

The Wheat markets have been dull and weak for ten days past, with a constant tendency to a lower level; there is a very large visible supply and a comparatively light foreign demand; hence the decline in futures as well as lots for immediate delivery ; only prime samples can be readily sold, and buyers discriminate more closely than ever as to grades.
